

GAME OF THRONES

AND THE ANALYSIS OF DEATHS

NUMBER OF MURDERS AND THE MOST COMMONLY USED WEAPON

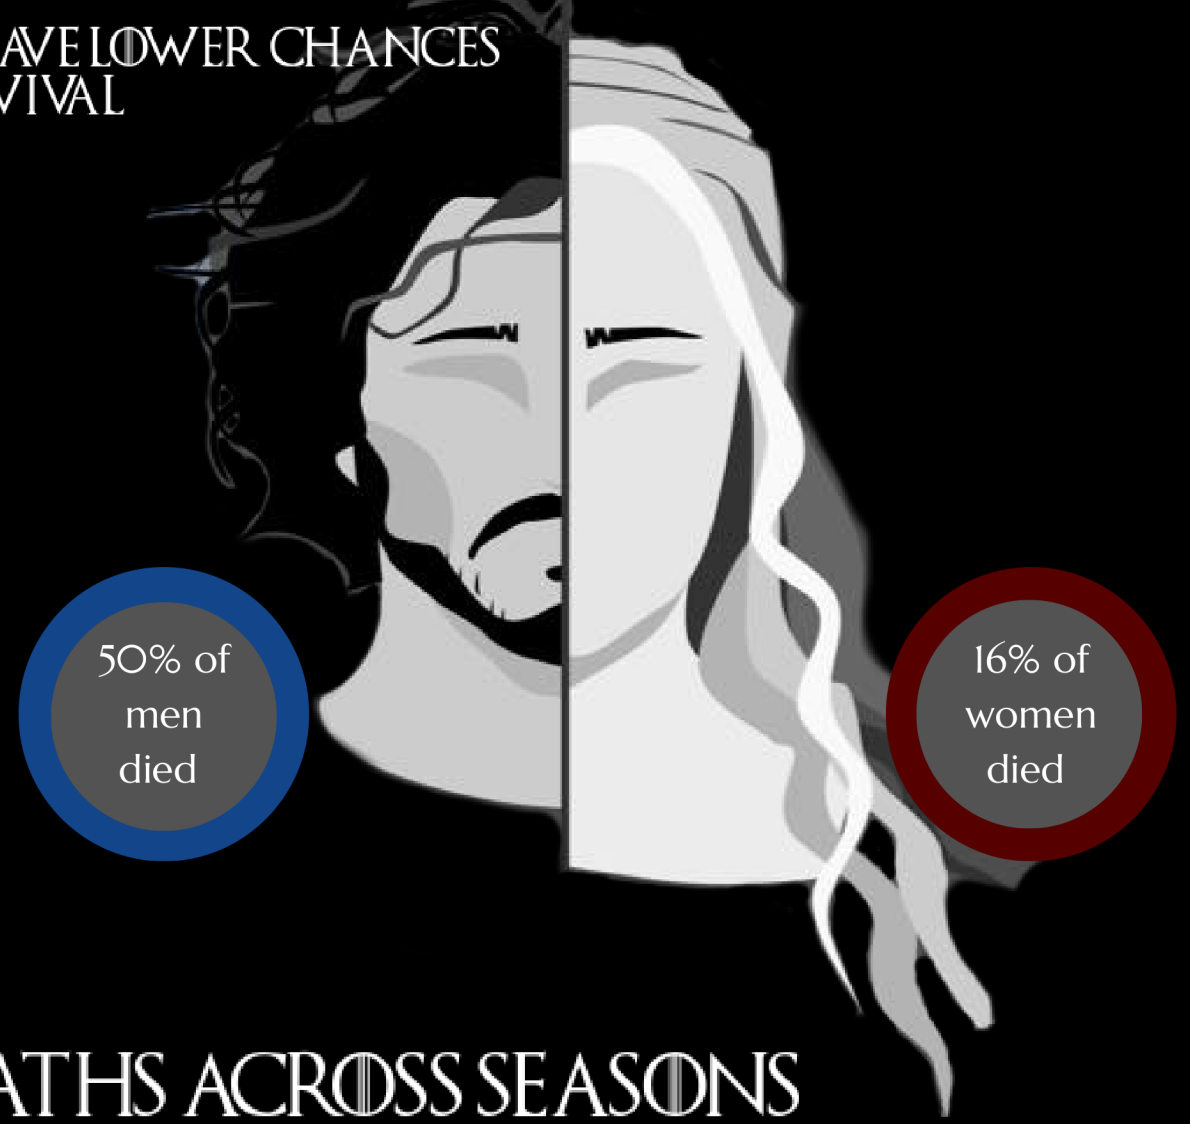

WHO IS THE BIGGEST CONSPIRATOR IN THE SERIES

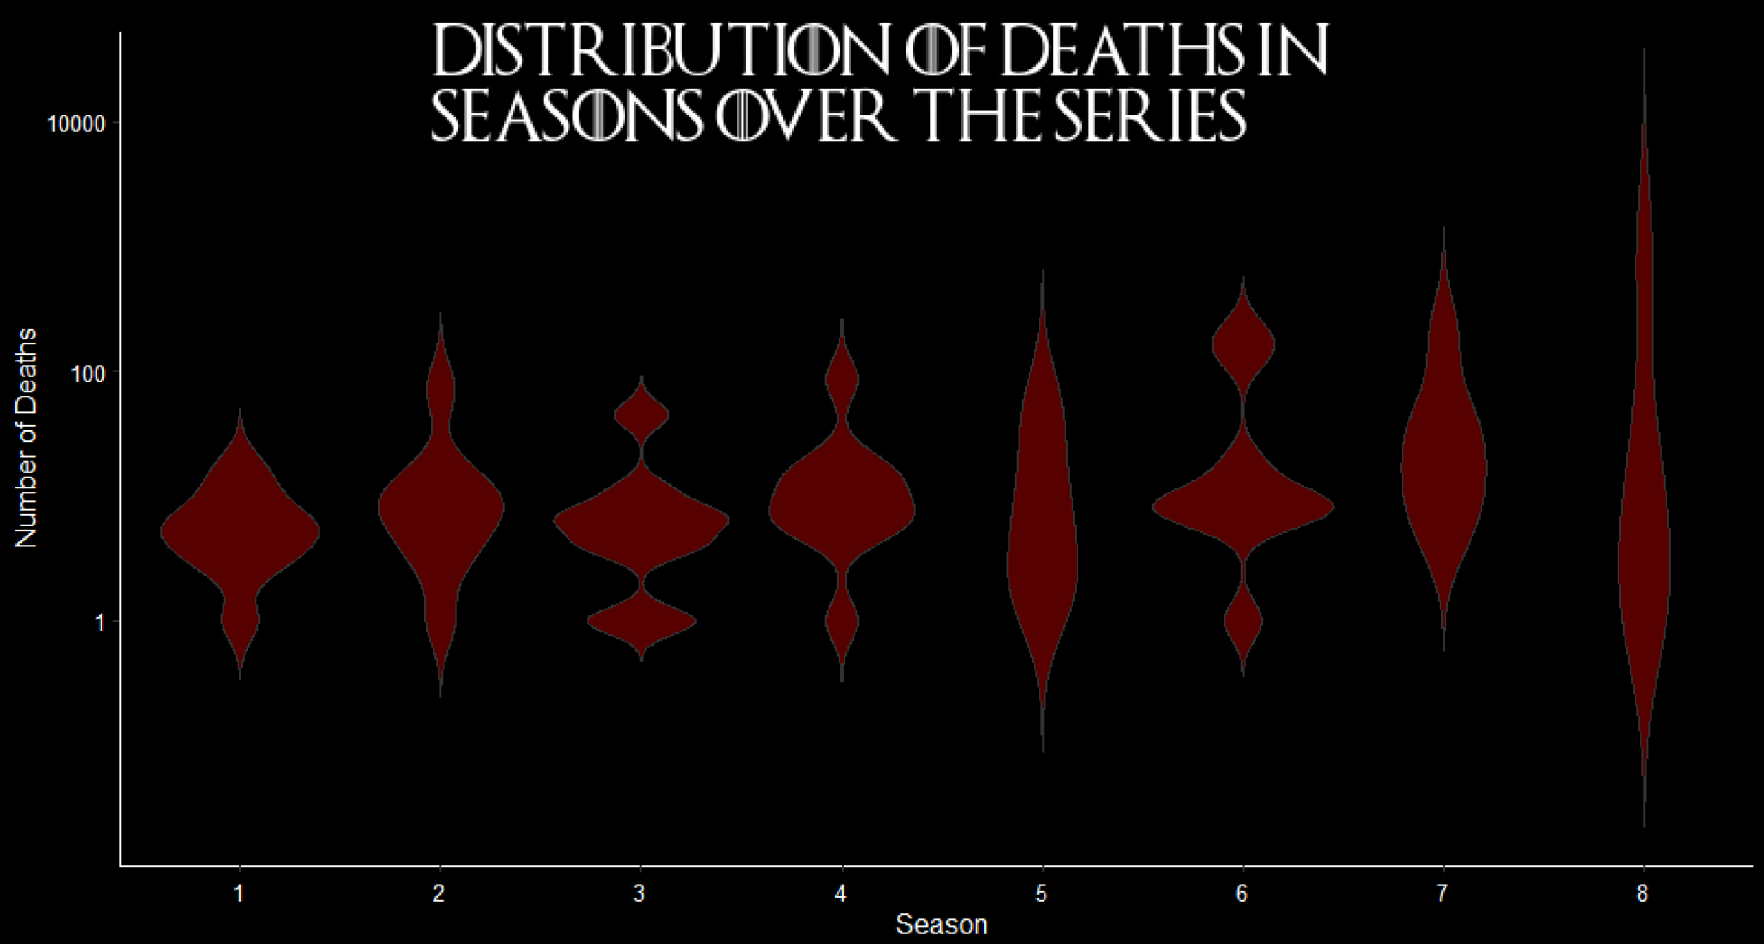

The chart at the top depicts the number of people each individual has murdered, while the text on the bar indicates the most commonly used weapon in those murders.

Meanwhile, the chart on the left showcases the "biggest villains" throughout the entire series. In our analysis, we considered all the characters with whom people interacted, and then calculated the percentage of those who died afterwards. We selected the most popular roles for our analysis. The results seem to reflect the plot.
